**AFSA History**

The Air Force Sergeants Association was founded in 1961 by four Air Force NCOs who recognized the need for an organization to represent the voice of all enlisted personnel to America's elected and military leaders. AFSA founders Benny McGehee, Lee Thompson, Virgil Perry and Don Ward established the association, and McGehee later became the first president, becoming the first representative of an all-enlisted organization to give testimony before the House Armed Services Committee.

The AFSA "wings" positively reflect the original Army - Air Force Chief Enlisted wings. The seven stars within the crest represent our seven divisions across the United States and overseas. The bottom left star represents our congressional advocacy, and the bottom right star represents the heart of our organization – our membership.

**Yesterday to Today**

Since 1961, the logo has been modified many times. In June of 2008 the current image was updated and the trademark renewed with the United States Patent and Trademark Office. The mark has been sensitively adapted for the digital age, so that it reproduces equally effectively in print and electronically, at all permitted sizes.
